

BRINGING
NEW LIFE TO
MARBLE OFFCUTS

texture and style while respecting the environment

STONETHICA

MULTIPLE APPLICATIONS

The Stonethica products are:

- guaranteed for residential and commercial **indoor use**
- ideal for **floors, walls, kitchen counters and bathroom surfaces**
- perfect for **interior design**
- **suitable for creating furniture**
- useful for customising house and work spaces
- **durable** and easy to maintain

CHARACTERISTICS

Stonethica produces stone materials as part of an eco-sustainable cycle: waste products from the processing of marble and natural stone are recycled and made into Stonethica slabs through the use of a natural, non-toxic, and bicomponent resin.

The whole process allows an average of 80% of the starting material to be salvaged and results in products with 99% recycled content that could contribute to compliance with LEED® (Leadership in Energy and Environmental Design), and BREEAM® (Building Research Establishment Environmental Assessment Method) standards for assessing the environmental performance of buildings.

NATURAL STONE

Stonethica is a stone product made from 99% marble and natural stones.

ECO-SUSTAINABLE

Created using an environmentally-friendly recycling and waste product reuse system.

VERSATILE

Ideal for floors, wall-cladding, kitchen tops, bathroom surfaces, and interior design.
